Chapter

1

Adde is a dinosaur. She is a Rozer. Rozers live on Mainia, which is a little known island. The Mainia Island is what made what we can see today at the Canary Islands.

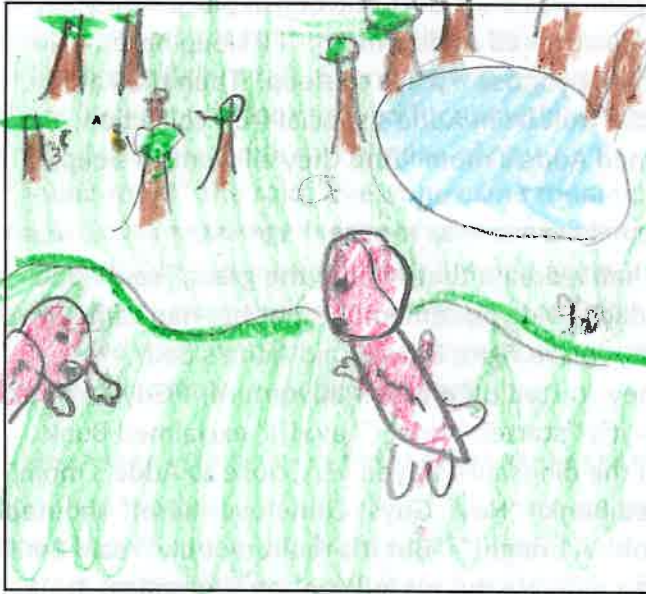

One sunny day, Adde went to the Sauras Club meeting spot. The Sauras club was a club that Adde and her friends made up. "Good morning," greeted Mike. Mike was a Bange. Banges had 2 brains!

(But the brains were as small as a huge dumpster!) (Okay...not really *that* small.)

"Sorry I'm late," said Adde's friend, Bunk. Bunk was a Manjo. Rex. "That's okay," said Adde. "So, what are we going to do today?" asked Mike. "Let's fish!" exclaimed Bunk. "We don't like fishing," said Adde. "Aww. We never get to fish," said Bunk. "We'll fish sometime," said Adde. "Okay," mumbled Bunk. "How about we play Tree country," suggested Mike. "Good idea!" exclaimed Adde, "Right, Bunk?" "Yeah!" exclaimed Bunk, forgetting he wanted to fish. Tree country was a game that Mike, Bunk, and Adde liked to play. To play them each had their own tree house. In their houses was a kitchen and living room/bedroom. In the kitchen, they had cookies made from seaweed and had tuition grass sandwiches. They started. "Mike, could I please have some tuition grass for my sandwiches?" asked Adde. "Uh... actually I don't have any," replied Mike. "Wait- I don't have any," said Bunk. "Uh... then...where will we get grass?" asked Mike. "Why can't we just get more?" suggested Bunk. "GUYS- the only place to get tuition grass is the-""The Bangy Realm?" guessed Mike. "How-how do you know?" asked Adde. "I

guessed," answered Mike. "Well... okay," said Adde, "yeah. But the Bangy Realm has the most dangerous plants and praetors!" "Really?" asked Mike. "Uh... not really," said Adde. "Well... then why can't we go there?" asked Bunk. "Well, our parents probably have grass," answered Adde. Adde, Bunk, and Mike went to Adde's ground. "Mom, can we please have some tuition grass?" Asked Adde. "Well, let me go look," replied her mom. She came back. "Well, even we don't have grass.

And that's just weird," she paused for a Moment. "I'll guess we'll have to get some." "Wait- are we going to the Bangy Realm?" Asked Adde in surprise. "Yes," she replied, "Yes we are."

Adde invited Bang and Mike. (Did I Mention That a Rozer's main food is tuition grass?) Adde packed her special collection of fruit and her other things. Adde's parents took Baby, Adde's baby sister with them. Rozer babies are very different than kids and Adult Rozers. For example, babies have a Shell and flippers.

Adde, her mom, her dad, her

friends, and Baby started off on their adventure.

All of them were off to Bangy Realm. Bangy Realm was a-uh- sort of tree-ish place. They got there at dinner. "Let's stay here for the night," instructed Adde's mom. "I'll sleep here," said Adde. "And I'll sleep here," added Baby. Everyone choose a place to sleep. Then they ate dinner. They had Lent Berries and each a special fruit from Adde's special fruit collection. They all soon got sleepy. "Time for bed," yawned Adde's mom. And they all went to sleep.

In the morning, all of the dinosaurs got up. "I had a dream that I found the grass," said Adde. "Well, then let's have breakfast," said Adde's dad. (Did you remember that her dad came too?) They all had breakfast. "Eggs," said Baby. "Yes, you're right, Baby," said Adde's dad. When they were all finished with breakfast, they started off on their adventure. "Guys- I smell something hot," said Adde's mom. "Wait- it's- it's-"started Adde. "Lava!!!" exclaimed Bunk. "Kids- stay close to me," said Adde's mom. All the dinosaurs stayed very close to Adde's mom. "Wow. How are we going to get across?" asked Bunk. "Hey! Guys! Come over here!" shouted Mike. All of them came running to Mike. "Look! A bridge!" "But it's really wobbly!" said Bunk. "Well... I'll check if it's safe," bravely said Adde's dad. He put his left foot on the bridge. It supported his weight! "Safe." "Okay..." said Adde as she put her body on the bridge. Soon, everyone had put their bodies on the middle. Baby was wobbling. Soon... she was slipping! "Mom! Da!" she said. "Baby's slipping!" screamed Mike, while Bunk was chattering. Baby only had 1 flipper on now. As time went by, Baby's flipper slipped off... And she fell!

Chapter 3

Baby kept falling and falling...

and the others got to the other side. When Baby reached the lava...

a rock broke Baby's fall. Everyone was relieved. "We need some rope," said Adde.

Everyone began to look around for something that looked like rope. But there was only dry lien grass. Suddenly, Adde saw a piece of rope...

"I found rope!" she said. Everyone came running. Adde lowered the rope down to baby... while the rock was breaking. Pieces of rock were falling, big and small. "Baby! Jump!" shouted Adde. Baby jumped... but missed! Baby jumped again... the rock was %100 broken and...

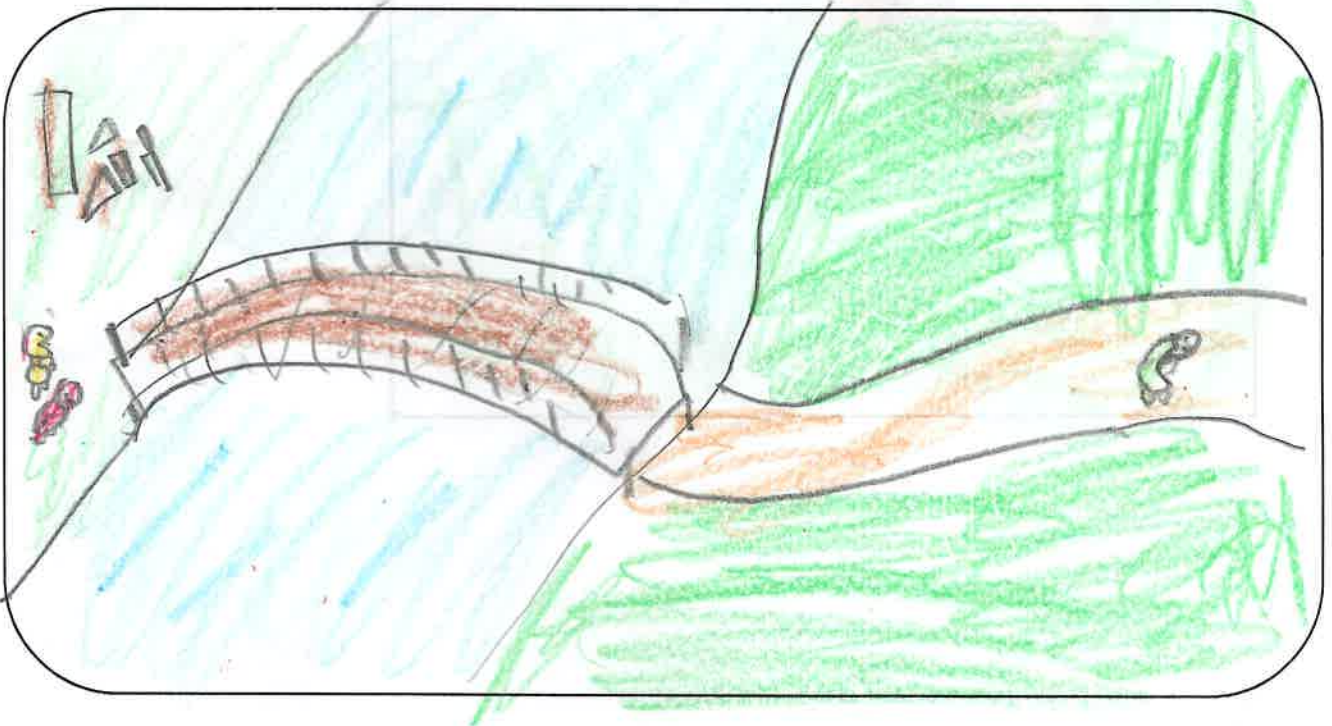

she made it. Adde pulled the rope up... and Baby was safely put on to the ground.

"Baby, we were worried," said Baby's mom, which is also Adde's mom.

And the dinosaurs were back on their journey.

They had reached a muddy river. "How are we going to get across?" asked Bunk. "Hmm.... I don't know," answered Adde's dad. "How about we build a bridge?" suggested Bunk. "Bunk, there is no building materials here," said Mike. "But look behind you Mike," said Bunk. "Bunk there is no buil-"Mike turned around. There, on the lien grass was wood and other materials. "Let's build!" shouted Adde. "Oh my," thought Mike.

All the dinosaurs were building.

Soon, all of them finished building. "Let's go!" shouted Adde. Everyone ran across the bridge. There, was the Tuition grass field.

Chapter 4

"Tuition Grass!" everyone shouted. Everyone picked at least 530 pieces, so that it would last a *long* time. Then, a brown animal came out from under a log. "Hi, dinosaurs," it said, "I am a Lench. We are sorry for our bridge not being done. You see, we are very busy. There was a thunder storm and it destroyed the bridges. We only got 1 finished." "We?" asked Mike. Then, 5945 Lenches popped out *everywhere*. "Wow." "Well, it is very nice to meet you," said Adde's mom, not leaning over because they were both around 2 feet tall. Then, the Lenches put them on a sled to go home.
